YOU'VE

COME

ALONG

Drag Performance in Cologne during carnival—walking through the crowds in drag is a challenge. We march together! The MTC is a special place on the „Zülpi.“

To feel the energy of the audience so close you can almost touch, match them, and give them the best time—they are the reason I can be what I am, and I will never forget that.

WY

DRAG

MAN

I started alone. I didn't know any other drag artists in my area. Over time, I found spaces and people I could connect with. Some became drag family. There are so many performers all over Germany, and even the world, who provide a safe space for me. We stay in touch, help each other and share experiences.
